

Gary L. Pierce, Ph.D.

Professor and Chair, Dept. of Health and Human Physiology

Professor of Internal Medicine

University of Iowa

PhD - Applied Physiology and Kinesiology - University of Florida

MS - Clinical Exercise Physiology - Northeastern University

BS in Biology - Worcester State University

Gary L. Pierce, PhD is a Professor and Chair of the Department of Health and Human Physiology, and the Russell B. Day and Florence D. Day Endowed Chair in Liberal Arts & Sciences at the University of Iowa. He is also Professor of Internal Medicine, Division of Nephrology and Hypertension (secondary appt), and a faculty member in the Abboud Cardiovascular Research Center, the Environmental Health Sciences Research Center and the Fraternal Order of Eagles Diabetes Research Center in the University of Iowa Carver College of Medicine. Dr. Pierce is also a fellow of the American Heart Association (FAHA) and the American Physiological Society (FAPS). He received a PhD in Applied Physiology and Kinesiology with a focus in cardiovascular exercise physiology from the University of Florida and completed postdoctoral training in vascular aging/human physiology in the Department of Integrative Physiology at the University of Colorado Boulder. His research investigates the mechanisms that contribute to accelerated vascular aging in persons at high risk for developing cardiovascular disease and cognitive impairment and tests the efficacy of interventions on reducing cardiovascular disease risk in these groups. His research has been funded continuously by the National Institutes of Health and/or American Heart Association since 2013.
